

# News letter – January 10<sup>th</sup> 2024

---

Happy new year!

Convum had a very busy end to 2023, where we attended the Irex 2023 expo in Tokyo where we were able to meet current and new customers from all over the world.

We also added new product details on our English product website at [www.Convum.co.jp/en](http://www.Convum.co.jp/en).

Now you can see information about our MVE stainless steel vacuum devices, as well as more detailed information about the SPG-H2 “Palletcher”.

There is also a video demonstrating it in operation!  
So please check it out!

We are also in the process of creating a dedicated English YouTube channel for our English speaking customers, so please keep a look out for this in the coming months.

Convum is also busy working on some other projects, that will help us support our international customers with great ease and convenience. We will report back to you in more details closer to the time!
