

News letter – October 1st 2023

Greetings,
And happy All Hallows Eve!!

Last month we were able to introduce our new series of Hygienic suction cups, for use in industries with direct food contact.

The new suction cups have **silver ion barriers**, and **antibacterial** properties making perfect for using in the food manufacture and packaging sectors!

Convum is also please to announce that we will be exhibiting at the **iRex** International Robot Expo 2023, located at Tokyo Big Site, from November 29th through to December 2nd!

We will be located in booth **E2-11**, so be sure to come by and see us!

We have released, (and will continue to release) Short videos to YouTube about the various products we produce!
This will give you a quick bite size view on how Convum products operate, to be sure you check back regularly.
